## Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, D/I, ORR

FROM : Acting Chiefs, I/W and I/Ammo

SUBJECT: Representation in [REDACTED] 25X1A6a

DATE: 21 August 1952

1. Both as a result of USFA reports currently received and from recent personal observation, it is evident that D/I, and ORR as a whole, is being hurt by the lack of representation in [REDACTED] such 25X1A6a as we have had in [REDACTED] 25X1A6a

25X1A6a

2. Whereas collection guidance and spot requirements for [REDACTED] can be rapidly communicated to ORR's representative in [REDACTED] such 25X1A6a 25X1A6a is not the case for [REDACTED] Communication with [REDACTED] can only be 25X1A6a accomplished by time consuming and/or devious channels with the result that the source is no longer available when the request arrives.

25X1A6a 3. [REDACTED] collection effort is quite sizeable. They, for example, utilize some 50 interrogators as compared with [REDACTED] 25X1A6a. However, State, Radio Free Europe, etc., are after those 50 interrogators and without a man on the spot, CIA/ORR comes out last in the fight for the interrogators' time. Also, [REDACTED] is the area into 25X1A6a which defectors from the [REDACTED] 25X1A flee. Lack of coverage by us means that the industrial information possessed by these people is not exploited.

4. It is therefore proposed that a recommendation to the AD by Chief, D/I, be made to the effect that this organization be personally represented in [REDACTED]
